### **Chairman's Note**

Dear Shareholders.

It is a pleasure to write to you once again. It has been a landmark year for GSL given that we have crossed the 10 million cases mark in the IMIL segment for the first time in our history. We have closed the year with record sales of over 12 million cases. This is a momentous achievement given the way GSL has created a niche for itself through product based innovations and focused branding in the highly commoditized IMIL space. Our core strength lies in our unique 360° business model which straddles across all segments of the spirits value chain (consumer facing and manufacturing). This not only insulates us from risk in price movement of any one of the products but also ensures greater quality control over the entire value chain.

The IMIL segment has been a traditional bastion for GSL. We have made concerted efforts to reinvent ourselves and consolidate our stronghold in the North Indian IMIL markets. It gives me immense pleasure and satisfaction to say the least that we have changed the face of this industry. Our strategy to brand IMIL with the launch of 'Nimboo' in the state of Haryana has received phenomenal consumer response. It has turned into a ~Rs.3,500 million brand at the retail level. GSL has revolutionized the product, packaging and branding to make a truly unique product in a heavily commoditized market. The idea is to implement this strategy to other states as well. The IMIL industry in the North Indian states is showing healthy volume growth and the company is geared to meet evolving needs of the bottom-of-the-pyramid consumers.

Coming to the branded IMFL space, GSL continues to strengthen its marketing and distribution network. The idea here is to build a robust platform from where we can launch higher value added products. We are also adding newer markets and newer products as witnessed by the launch of 'County Club' in Delhi and 'French Castle' in the states of AP & Kerala. We now have a distribution reach extending to eight states i.e., Haryana, Rajasthan, Chandigarh, Punjab, Himachal Pradesh, Kerala, Andhra Pradesh and Delhi which contribute ~40% to branded IMFL industry. In addition we also have a plan to build a premium product portfolio in collaboration with international partners enjoying strong brand equity globally. This is a young business and remain committed to development of the same through sustained brand building along with building a strong marketing and distribution network.

The Franchisee Bottling business is witnessing strong traction post the signing of a new agreement with USL and revival of bottling operations for Jagatjit Industries. This business is a proxy play on the rapid growth of the branded IMFL industry. The initial contract with USL will contribute volumes of ~0.75 million cases per year and is expected to ramp up significantly going forward. We will start with bottling Bagpiper Whisky which will be followed by Moghul Monarch and Derby Special. The arrangement further strengthens GSL's alliances in the franchisee bottling segment and will enable guaranteed utilization of capacities coupled with higher margins compared to the sale of bulk spirit. GSL can proudly claim to manufacture two of the world's largest selling whiskies, Bagpiper and Officer's Choice. The bottling business is also of sticky nature and allows us to capitalize on the growth of branded IMFL industry with limited investments.

Coming to bulk alcohol space, our capacity which has increased from 43.2 million liters to 84.4 million liters p.a., the operations have stabilized and our new plants are now operating at high capacity utilization. We also have plans to increase our capacity further to about 120 million liters for which we have already placed necessary orders for plant and equipment and they are in advanced stage of erection at our distilleries. We are adding 40 million litres of zero effluent discharge capacities at a much lower cost than industry norms. An important point to note is that over the last 3 years, we have achieved ~3x capacity expansion without any equity dilution. The bulk alcohol segment is expected to show strong growth given the macro situation vis-à-vis demand-supply gap for potable alcohol and implementation of ethanol blending requirements. GSL is well positioned to take advantage of the buoyancy in the bulk spirit prices due to its expanded capacities.

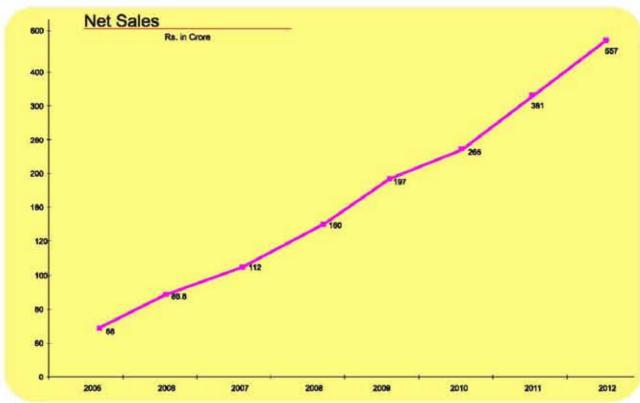

To put FY12 into perspective, GSL recorded strong topline growth and a small increase in profitability. It has to be kept in mind that FY12 also saw higher fuel and raw material costs. Our capacities have also completely stabilized and we believe that coming year will see the benefit of optimum utilization. We have taken steps to continuously fortify our 360° business model through differentiated strategies for each segment and remain confident of exhibiting a healthy operating and financial performance in FY13 as we reap the benefits of intra-segment synergies coupled with the robust demand outlook.

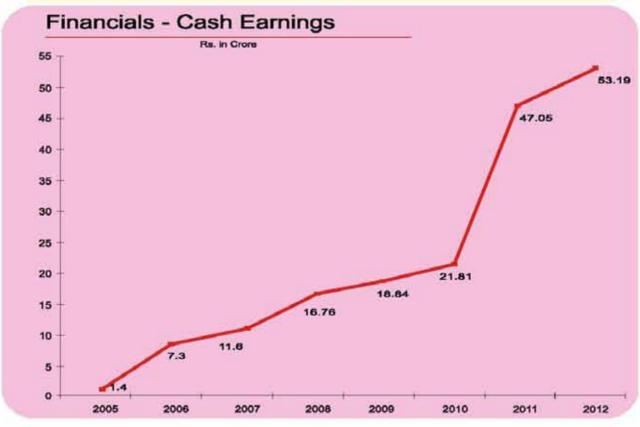

I am happy to announce that the Board has recommended a dividend of 12% per share.

I would like to thank everyone, first and foremost our employees, our customers, bankers, financial institutions who have all stood by us and also our shareholder community for their faith in our growth story. I also wish to thank our other stakeholders for their continued support.

#### PERFORMANCE REVIEW

During the year under review your Company reported an increase in Gross turnover by 36.84% from Rs.521.58 Crore (Previous year) to Rs.713.75 Crore (Current year) and an increase in PBT by Rs.2.45 Crore over the previous year and an increase in PAT by Rs.0.96 Crore over the previous year. The EPS of the company is Rs.17.78/- as compared to Rs.17.36/- in the previous year.

#### THE YEAR IN PERSPECTIVE

During the year, your Company strengthened its presence in both the bulk and the branded businesses in line with its vision of being a 360p player. The IMIL segment experienced robust growth at more than 40%, crossing ten million cases for the first time and concluding the years with 12.4 million cases. Your Company launched a new brand 'Nimboo' in the IMIL segment in the Haryana market, which within a short span of seven months increased your Company's market share from 20% to 27% in the state. In Rajasthan also, your Company improved its market share to 25%, while retaining its leadership position in the state of Delhi. The IMFL segment showed high volume growth at more than 25%, with your Company widening its distribution network in the states where it operates.

Your Company stabilized the new capacities which had been commissioned in the previous year and by end of fourth quarter was operating at 90% capacity utilization rate. The capacities across all three units at Behror (Rajasthan), Samalkha (Haryana) and Hisar (Haryana) now stand at 84.4 million litres. This will provide strong support to fuel growth in the branded and franchise business in coming years and keep these businesses insulated from any price increases in Extra Neutral Alcohol.

#### MATERIAL CHANGES AFTER MARCH 31, 2012

During the current year, commencing April 1, 2012, your Company entered into a new franchisee contract with United Spirits Ltd, a leading player in the IMFL segment. The initial contract will contribute volumes of ~0.75 million cases per year and is expected to ramp up significantly going forward. Your Company also revived the bottling operations for Jagatjit Industries Limited in its Samalkha unit at Haryana following a change in the excise policy. These arrangements strengthen GSL's alliances in the franchisee bottling segment and contribute to sustaining high utilization of bulk alcohol capacities coupled with higher margins compared to sale of bulk alcohol standalone.

Your Company has launched a new brand "French Castle" in the brandy segment (IMFL division) catering to the semi-premium market. This has been introduced in the states of Andhra Pradesh and Kerala. This is in line with your Company's long-term strategy of introducing brands in the higher value added segments. In addition, your Company has launched its flagship brand 'County Club' whisky in the Delhi market.

#### DIVIDEND

Your Directors are pleased to recommend dividend of Re. 1.20/- i.e. 12 % per equity share of Rs. 10/- each of the Company for the year 2011-2012.

#### **PUBLIC DEPOSITS**

The Company has not accepted or invited deposits covered under the provisions of Section 58A of the Companies Act, 1956 read with the Companies (Acceptance of Deposit) Rules 1975 from any person.

### MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

#### Company Overview

Globus Spirits Limited is a leading North Indian Alcohol player engaged in manufacturing, marketing, and sale of branded IMFL, IMIL and Bulk Alcohol comprising of Rectified Spirit and ENA while also engaging in taking franchisee bottling to cater to renowned Brand owners. Over years, your Company has been able to establish its identity as a high quality liquor manufacturer and has successfully built its own branded portfolio in the IMIL and IMFL segments. This makes GSL a company with a very strong manufacturing base complemented By an

ever growing presence in the consumer segment. Your Company has been able to strike a perfect balance between manufacturing operations driven by high quality assets with the consumer-facing business which is brand driven and has high potential for growth.

It is the only Company in the Alcobev industry to straddle all segments of the spirits value chain (consumer and manufacturing) with a unique 360° business model. This insulates your Company from risk in price movement of any one of the products and also enables it to leverage growth opportunities across all segments while ensuring greater quality control over the entire value chain.

GSL currently operates three modern and fully integrated distilleries at Behror, Rajasthan and Samalkha and Hisar, Haryana, which have a combined capacity of 84.4 million bulk litres (BL) per annum. These state-of-the-art plants are capable of distilling alcohol from grain or molasses.

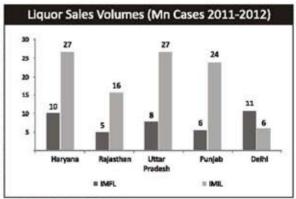

#### Industry structure

In terms of volume, IMIL is almost equivalent to the IMFL segment in the domestic alcohol industry. Estimates peg the industry size at around 250 million cases, growing at a healthy rate of ~6-8%.

Having evolved in the way it did, the IMIL industry became a commoditized play. The pricing norms in most states were established by the government, and combined with a natural growth rate; there was little incentive for producers to differentiate. Further, the licensing norms naturally insulated the existing players from new competition. Due to the stipulation that the liquor had to be produced at a distillery located within the state, this became highly localized and fragmented in nature.

In recent times, the low-income consumer has gained prominence in the Indian consumption story. Across consumer goods companies, there has been a trend of increasing focus on this stratum of society. Similarly, in IMIL also, companies have realized that in order to gain volumes, it is not sufficient to have a 'me too' product. The product has to be innovative, it has to be attractively packaged and the brand story has to be effectively communicated to the target audience, so as to achieve the desired results. The industry, thus, has begun to embrace the concept of branding and Globus Spirits Limited has played a significant part in this.

The branded IMFL segment is the fastest growing segment of the Indian alcohol industry. Indian IMFL industry stood at \$19.2 bn in 2010 growing at a rapid 18.9% p.a. during the period 2006-10, amongst the highest in the world. Amongst the different segments in branded IMFL, whisky is the largest category, comprising ~60% of the volumes, while vodka and brandy are the fastest growing at 20%+ levels. Driven by attractive demographics and changing perceptions, growth is expected to sustain at 12.1% levels during the period 2010-2015, outperforming most other nations. Factors such as an increasing population, favorable societal perception, higher purchasing power and low penetration levels are expected to augment volume growth.

#### **Business Verticals:**

IMIL

Your Company is a leading player in IMIL in North Indian states, specifically, Rajasthan, Haryana and Delhi. It

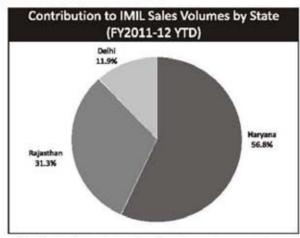

forayed into IMIL with its entry into the Rajasthan market in 1999, and soon expanded its presence to Haryana in the following year. The launch in Delhi was much later in 2007, by which time your Company had already acquired a leadership position in its existing markets.

Your Company is pleased to announce that it has crossed the 12 million cases mark in FY12 for the first time in its history. In the financial year 2011-12, the Company recorded sales of ~12.4 million IMIL cases and had a market share of over 25% across each of these three markets. To a large extent, this growth is attributable to the launch of a new brand "Nimboo" in Haryana, which in a short span of seven months, caused the GSL market share in Harvana to increase from 20% to 27%. At the retail level, this brand has done a business of Rs. 3,500 million. The brand was launched after extensive efforts in market research, product development and designing premium packaging with a clear message. GSL has been

growing faster than the industry growth rates in each of the three markets. This growth has been achieved as a result of concerted efforts towards creating strong brands, introducing better packaging (e.g. PET bottles) and offering more flavors. The culmination of these efforts can be seen in the runaway success of the Nimboo brand.

The IMIL industry in the North Indian states is showing strong volume growth and companies geared to meet changing needs of these bottom-of-the-pyramid consumers can stand to benefit significantly. Not only is the industry growing rapidly, but also there is an opportunity to grab market share from companies who continue to rely on a commoditized approach.

#### Franchise IMFL

The Franchise IMFL industry is a proxy play on the rapid growth of the branded IMFL industry. Your Company offers tremendous value to incumbent branded IMFL players due to huge capacities as well as consistency in blend. The Franchise IMFL business is also of sticky nature as manufacturers are generally reluctant to frequently change the bottler to maintain the consistency of the product.

Your Company has existing bottling contracts with ABD India, Jagatjit Industries and United Spirits for ~3.75 million cases. The contract with Jagatjit Industries was revived post the change in excise policy in Haryana and the increase in volumes will be reflected in FY13. The existing tie up with ABD India continues to be strong.

Another significant highlight of this business, during the year, was the signing of a franchise bottling agreement with United Spirits in the state of Haryana. The initial contract will contribute volumes of ~0.75 million cases per year and is expected to ramp up significantly going forward. The operations have already commenced in April 2012 with bottling for Bagpiper Whisky and will be followed by Moghul Monarch and Derby Special. The arrangement further strengthens GSL's alliances in the franchise bottling segment and will enable guaranteed utilization of capacities coupled with higher margins compared to the sale of bulk spirit. Your Company can proudly claim to manufacture two of the world's largest selling whiskies, Bagpiper and Officer's Choice.

ABD in Rajasthan (data based on Globus estimates)

For FY12 the Franchisee bottling business recorded volumes of 1.26 million cases contributing 18.65% to the total revenue share.

#### **Branded IMFL**

Your Company has been a relatively new entrant to the branded IMFL segment making its debut in 2007. The business has been growing rapidly from a small base and continues to remain an important cog in the wheel. Your Company has been making sustained efforts to build brands and establish itself in this highly competitive but lucrative segment.

GSL has a two-fold strategy for growth in this segment. The core focus remains on building a robust distribution network through launch of brands in regular or mass market segments and leveraging this network for marketing higher value added products. The distribution reach now extends to 7 states, i.e., Haryana, Rajasthan, Punjab, Himachal Pradesh, Kerala, Andhra Pradesh and Delhi, which in aggregate contribute to ~40% of branded IMFL industry in India. In addition, your Company also plans to build a premium product portfolio in collaboration with international partners enjoying strong brand equity globally.

For FY12 the branded IMFL business recorded volumes of 0.7 million cases (including sales from tie ups) contributing 6.22% to the total revenue share.

#### Bulk alcohol:

#### Manufacturing Facilities & Capacity

Your Company has state-of-the-art plants at Rajasthan (Behror) & Haryana (Samalkha & Hisar) having aggregate annual distillation capacity of 84.4 mn bulk litres with multi-feedstock capability. All these plants deploy zero-discharge technology which is extremely environment friendly and are equipped to operate at a higher efficiency levels. A key differentiating factor which sets apart your Company from competition is the ability to build technologically superior plants at a

much lower cost than the industry average. Your Company is now on track to increase the total capacity to 120 million BL which is expected to be operational by H2 FY13. The segment is expected to show strong growth given the macro situation vis-à-vis demand-supply gap for potable alcohol and implementation of ethanol blending requirements. Your Company has witnessed continued buoyancy in prices in the bulk spirits market and with the expanded capacities; GSL will be a key beneficiary. Also, as per the Ethanol Blending Program, it is mandatory to blend 5% of ethanol with petrol. With increasing crude prices, OMCs also find it more profitable to use ethanol as a blend with petrol, and hence the increased demand appears sustainable. This should keep the prices firm in the near term.

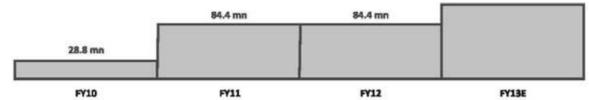

#### Capacity Ramp-up (FY10-FY13E) 4x capacity in 4 years

120 mn

For FY12 the bulk alcohol business recorded volumes of 240.44 lac BL contributing 14.08% to the total revenue share.

#### Financial Highlights:

- Total income from operations higher at Rs. 5,574.2 million compared to Rs. 3,835.2 million
- Operating Profits rise to Rs. 749.7 million vis-à-vis Rs. 651.8 million
- Profit after Tax (PAT) increase to Rs. 408.9 million compared to Rs. 399.3 million EPS (annualized) stood at Rs. 17.78
- The Board of Directors has recommended a dividend of Rs. 1.2 per share for FY12.

#### **Environmental Compliance**

Your Company is on its way to becoming a zero discharge company. We care for the environment as we believe in the philosophy of sustainable development. Air pollution is controlled through the installation of relevant control devices like ESPs which help in collection and purification of CO2. Following are the steps we have undertaken in the new expanded capacity:

#### Air Pollution

- a) Step forward to achieving zero discharge (explained below)
- b) Air Pollution control through installation of the relevant Control devices with ESPs
- Air pollution control through collection, purification and sale of CO2
   All Carbon dioxide generated in fermentation shall be collected purified and sold to buyers including soft drink manufacturers and others thus abating air pollution.
- d) Proper disposal of all effluent related products such as spent grain and fly ash
   Spent Grain shall be sold as cattle feed see below and fly ash/ash disposed off for land fill or for brick making.

#### Details of Zero Discharge - Liquid Discharges

Achieved through the following steps

#### 1. Separation of spent grain from spent wash

The spent wash emerging from distillation (waste) would be passed through suitable equipment for the separation of spent grain.

#### 2. Evaporation of Spent Wash

The lean spent wash would then be evaporated and concentrated to syrup in an evaporator specially put for the purpose which is integrated with the Distillation plant. This would be required to enable its drying later.

#### 3. Mixing the concentrated spent wash with spent grain

The syrup spent wash and the spent grain obtained would be mixed to form Wet Grain which can be sold as cattle feed.

#### On the water side

- All water re-circulated to process with or without treatment thus no discharge of any water stream
- 2. Surplus water used in make ups or in the boiler and cooling towers after treatment
- 3. Condensate from process reused in the boiler as boiler feed water
- Condensate from evaporator reused in the process after treatment
- All cooling water is through recirculation
- All bottle washing water reused after treatment in the process or used for horticulture
   Thus, achievement of zero discharge on all streams as per requirement of the Pollution Boards

#### R&D Activities in Globus

#### Technology

#### a) Higher efficiencies of conversion

The expansion is done with the state of the art latest technologies to get the best conversions to alcohol at the highest efficiencies. This would be in lines with the best practices being followed. We are also working on getting to improving conversions not only of starch but also to alcohol with new strain of enzymes and yeasts.

- b) Improving Distillation techniques and translating that to the plant in the expansion Multi-pressure To improve both on quality and energy consumption the distillation plant shall be of the multi-pressure design which would give us the benefit of both. The quality would be matched with the best alcohol available in the country.
- c) Looking at alternate disposals of spent grain

To keep in lines with the requirements of government regulations we would look at the waste as cost center and are looking at alternative markets in the cattle feed segment for its best disposal at the best price in India and overseas.

d) Looking at better blends as final product diversification

With better quality alcohol available we are moving to higher segments in the potable alcohol sector with better blends and brands and would be launching further brands in the future to build our market.

e) Alternate uses of Biogas to derive greater value for additional power and so on

Power generation directly from biogas is being examined. While it is being used presently for the generation of power through the steam route a direct more efficient system of power generation is also being examined through gas engines.

#### Corporate Social Responsibility

'We are proud to be a partner in the process of skills creation and empowerment of our youth, and hope our endeavors will assist in social inclusion becoming a reality in our nation.'

Realizing their social responsibility, the promoters of GSL launched GRAS Academy in 2006 to bring about social change by empowering the unemployed youth with vocational skills. The idea was to make them 'Eduployable' [Educated + Employable], capable of earning a livelihood to support their families. GRAS Academy works in both urban and rural areas with the underprivileged youth offering them vocational training, skills development and helping them find employment opportunities.

It is our belief that such skill-development exercises help the youth to increase earning potential, and in utilization of their education and personal talents. It motivates them to participate in productive activity helping them in acquiring a secured employment/self-employment.

The Government of India's recent initiative policy – The National Skill Development Mission, aimed at 'empowering all individuals to enable them to get access to decent employment and to promote inclusive national growth' calls for public-private partnership to ensure that its goals are met.

GRAS SD&EC offers nearly 50 short duration practical courses to semi-urban and rural youth. These courses are of eight to twelve weeks duration and focus on specific skills development in areas that have been identified as having income generating potential for the students.

GRAS Academy has already trained more than 15,000 candidates and 5,500 candidates are presently undergoing training at various locations. GRAS Academy, within a very short span has emerged as one of the leading Vocational Training Providers in the country.

GRAS Academy has currently 40 centers located in UP, Punjab, Delhi, Haryana, Rajasthan, AP, Uttrakhand and Bihar. For more details, please visit – www.grasacademy.in

#### Risk Management

The nature of our business is such that it is subject to certain risks at different points of time. Some of these include escalation in the cost of raw materials and other inputs, increasing competitive intensity from other players, changes in regulation from central and state governments, changes in supplier-distributor relationship, labor shortage. Your company has a proactive approach when it comes to risk management where it periodically reviews the risks and strives to develop appropriate risk mitigation measures for the same.

#### Internal Control Systems

Your Company has ensured that stringent and comprehensive controls are put in place to ensure the optimal and efficient utilization of resources and to ensure safety and protection of all assets from unauthorized use. An extensive program of internal, external audits along with periodic reviews by the management is carried out to ensure compliance with the best practices.

#### **Human Capital overview**

Your Company considers human capital a core area for sustainable growth and has been making conscious efforts to engage and develop human capital at all levels. The Human Resource Department of your Company is highly focused on enhancing stakeholder value by ensuring a fit between the management of an organization's employees, and the overall strategic direction of the company. Over the years your Company has been able to build a team of qualified, dedicated & motivated professionals. The working atmosphere provided to the employees is aimed at creating a sense of ownership which helps them to shoulder greater responsibilities. As on 31st March 2012, the employee (excluding casual) count for the company stood at 300 compared to 290 on 31st March 2011.

#### NOTES TO THE FINANCIAL STATEMENT FOR THE YEAR ENDED MARCH 31, 2012

#### 1. SUMMERY OF SIGNIFICANT ACCOUNTING POLICIES

#### (a) Basis of preparation

The financial statements are prepared under the historical cost convention on accrual basis of accounting and in accordance with generally accepted accounting principles ('GAAP') in India, applicable Accounting Standards ('AS') as prescribed by Companies (Accounting Standard) Rules, 2006, provisions of the Companies Act, 1956 ('the Act') and guidelines issued by the SEBI, as applicable to the Company.

#### (b) FIXED ASSETS (Including Intangible Asset)

Fixed Assets and Intangible Assets are stated at cost less accumulated depreciation less impairment, if any. Cost of tangible fixed assets and intangible assets comprises the purchase price and any attributable cost of bringing the asset to working condition for its intended use. Insurance spares are capitalized with the related mother asset from the date such asset is put to use.

#### (c) DEPRECIATION

The company has provided depreciation as per Straight line method in accordance with schedule xiv of the companies act, 1956.

#### (d) INVESTMENTS

Investments are carried at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution has not been made in the value of the investments.

#### (e) REVENUE RECOGNATION

Sales are recognized on delivery or on passage of titles of the goods to the customers. They are accounted net of sales return but inclusive of excise duty. Income from investments is accounted for in which right to receive of such income is established.

#### (f) EMPLOYEE RETIREMENT BENEFITS

The company has various schemes of retirement benefit, namely Gratuity, Leave encashment and Provident fund and Provisions for contribution to retirement benefits scheme are made as follows

- a) Provident fund on actual liability basis.
- Provision for Gratuity and Leave encashment has been provided for as per actuary's valuation method.

#### (g) EARNING PER SHARE

Basic earnings per share are calculated by dividing the net profit or loss for the year attributable to equity shareholders by the number of equity shares outstanding during the year. The Company has not issued any potential equity shares, and accordingly, the basic earnings per share and diluted earnings per share are the same.

#### (h) IMPAIRMENT OF ASSETS

The indicators listed in paragraph 8 of Accounting Standard (AS)-28 "impairment of assets " issued by Institute of Chartered Accountants of India have been examined & on such examination , it has been found that none of the indicators are present in the case of company. There is no indication of a potential impairment loss, so estimation of recoverable amount has not been made.

#### (i) SEGMENT REPORTING

In the opinion of the management, company is involved in only one type of product Industrial & Potable Alcohol as envisaged by AS 17 'Segment Reporting', prescribed by the Companies (Accounting Standards) Rules, 2006. Accordingly, no separate disclosure for segment reporting is required to be made in the financial statements of the Company.

Secondary segmentation based on geography has not been presented as the Company operates primarily in India and the Company perceives that there is no significant difference in its risk and returns in operating from different geographic areas within India.

#### 1.A Other Notes to Accounts

#### (j) Deferred Revenue Expenditure
